

SPECIALTY FABRICATION SERVICES

UNIQUE BUILDING PRODUCTS. PREFABRICATED. PREFINISHED.

Guardian Building Products have developed specialised facilities for the fabrication and complete customisation of an extensive range of building products. These services provide customers with significant advantages in design opportunities, a reduction of total on-site resource commitment and environmental concerns, including silica dust management.

Prefabricated, prefinished and delivered ready for installation, Guardian's specialised services allow a more streamlined and simple approach to construction products.

Guardian has unique capabilities to meet customer requirements and to deliver on the most expansive projects within Australasia.

SERVICES

-  Cut to size
